

GROUP WORK HELPER

404 Not Found

Lim Lee Theng
Chan Zi Xuan
Celina Yeap Hui Enn

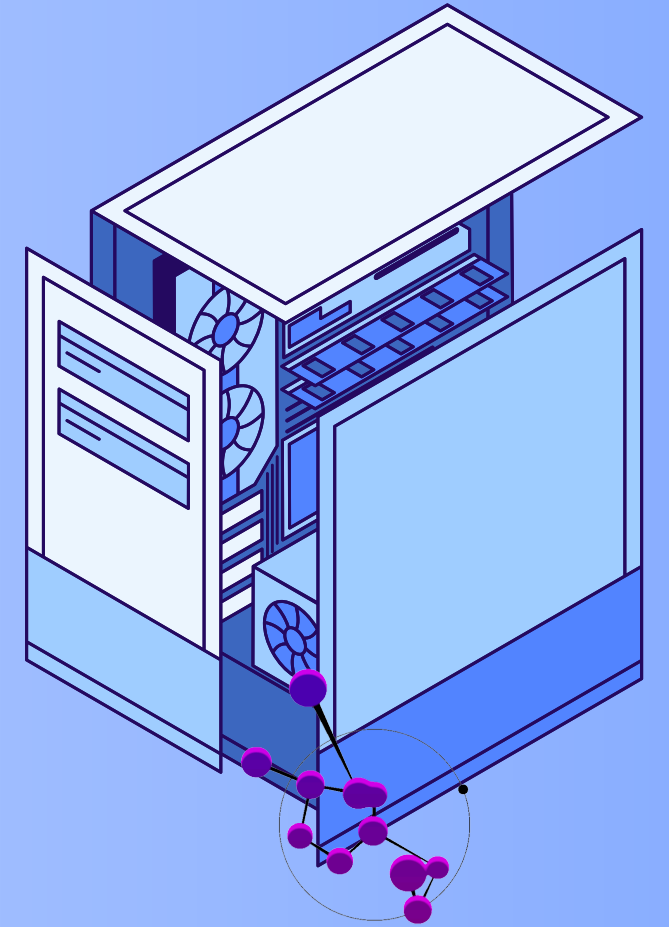

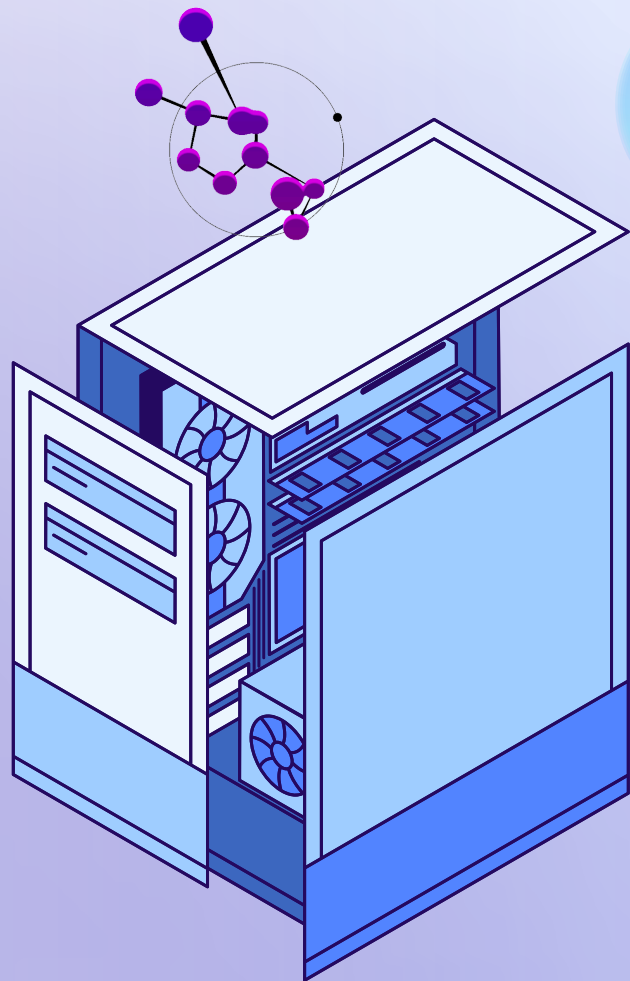

Introduction

PURPOSE

1. helps students manage group projects by
 - assigning tasks
 - tracking progress
 - sharing drafts
2. reduce miscommunication
3. ensure fair participation through clear task distribution.

Concepts

STORY

- Inspired by personal experience as a student.
- Noticed common problems in group projects:
 1. Poor coordination
 2. Uneven workloads

Often, students rely on verbal agreements, which leads to forgotten tasks.

This project was born to **make group projects clearer, more organized.**

Concepts

TARGET AUDIENCE

students, particularly those in high school or college,
who regularly work on group assignments.

It also serves **teachers or lecturers**
who want a better way to oversee group progress.

It fulfills the need for:

- Clear task delegation
- A central place to upload drafts and updates

Development

TOOLS & TECHNOLOGIES

Frontend: HTML, CSS, JavaScript

Backend: PHP

Database: MySQL

Others: Bootstrap (for UI),
GitHub (for version control)
Chatgpt

KEY FEATURES

Task Board: Visual Kanban-style board to see who is doing what

Submission Box: Upload drafts, documents, and deliverables in one place

Progress Tracker: Percentage-based progress indicator for tasks and overall progress

Development
